FARQUHAR'S

CATALOGUE OF

BULBS

1900~

PLANTS, SHRUBS
AND SEEDS

FOR AUTUMN PLANTING.

R. & J. FARQUHAR & CO.

16 AND 19 SOUTH MARKET ST.

BOSTON, MASS.

TO PATRONS.

Our Mr. JAMES FARQUHAR has been in Europe for the past three months attending to our importations of Bulbs, Seeds and Plants. He was also in Europe at the beginning of the present year in the same interests.

It has been our custom for many years to visit sources of supply the world over, and we have been enabled thereby to obtain and supply the finest productions in our various lines.

Our Dutch Bulbs are the finest brought to the United States; the Growers in Holland admit this, and one of our leading firms has informed us that our Contract to them for the present year was the largest placed in Holland by any American House.

We solicit a trial order from any one who may have not bought previously from us, and we invite intending purchasers to call and examine our Bulbs.

BULBS BY MAIL.

Bulbs securely packed will be sent by mail, POSTAGE PREPAID, to all parts of the United States, at the single or dozen prices quoted in the Catalogue, excepting a few heavy species for which the mail prices are given.

AT OUR GREENHOUSES

We carry large stocks of:

Araucaria Excelsa,

Begonias,

Cycas revoluta,

Ferns,

Ficus Elastica,

Palms

and other Decorative Plants for house and greenhouse. We also carry fine Plants of the leading varieties of Greenhouse Grapes.

While we exercise the greatest care to have our Seeds, Bulbs, Plants, Trees and Shrubs pure and reliable, grown in localities and under conditions tending to promote their highest development, we nevertheless give no warranty, express or implied, as to the quality, description, productiveness or any other matter of any of the Seeds, Bulbs, Plants, Trees or Shrubs we sell, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

As the prices of many articles herein mentioned are liable to fluctuation, we cannot agree to maintain them; the prices are therefore subject to change without notice.

HYACINTHS.

NOTES ON THEIR CULTURE.

HYACINTHS IN POTS.—It is important in the pot culture of the Hyacinth to have rich light soil; a compost, one-third decayed turf, one-third rotted cow manure—a year old at least—and the remainder equal parts sharp sand and leaf-mould, will be found excellent. The compost should be made a few weeks before being used. If the bulbs are to be potted singly, pots five inches in diameter should be used. Cover the hole in the pot with a piece of broken pot and over this place a layer of moss, which will keep the soil from clogging the drainage thus provided. Break off any offsets which appear at the base of the bulb, and in potting place the bulb so that its top shall be half an inch below the level of the surface of the soil, and about an inch below the rim of the pot. The soil should be moderately moist and should not be pressed too firmly. The filled pots may be placed in a cold frame where there is protection from frost, and well watered. An excellent plan is to place them on a bed of moist, sifted coal ashes, covering the pots to a depth of six inches with the same material. When well rooted, which will be in four to six weeks, they may be brought indoors and forced. For the first two or three weeks they should be kept in a temperature not exceeding 50 degrees. Success in forcing them depends much in their having strong roots before being brought to the light. The top grows rapidly and unless the roots are started much in advance, they are unable to nourish it and failure results.

Hyacinths for early use may be potted in September, although October is perhaps the best time; late planting is not advisable as the bulbs deteriorate; it is better to pot them in October and keep them in a cold frame above freezing, when desired for late use.

To obtain dwarf foliage and fine flower spikes, Hyacinths when being forced, should have plenty of manure-water, fresh air, and be kept very near the glass. The blooms last much longer if shaded from the sun.

HYACINTHS IN GLASSES.—The single varieties are, with a few exceptions, best adapted to this mode of culture; they produce finer flower spikes than the double.

Fill the glass with clear soft water so as nearly to touch the base of the bulb, putting a small piece of charcoal in each glass to keep the water pure and afford some nourishment. The filled glasses should be placed in a dry, cool, dark place, and kept there until the roots almost touch the bottom of the glass, when they may be exposed gradually to the light. If the water in the glasses becomes foul, or diminished, replace it with fresh water about the same temperature as the atmosphere in which the bulbs are growing; otherwise it need not be changed.

When well started, the bulbs should have plenty of light and air, but without draughts, in order that the best development and brilliancy of color may be attained.

HYACINTHS IN THE OPEN GARDEN.—The ground should be dug to a depth of at least fifteen inches and enriched with plenty of well-rotted cow manure.

Hyacinths may be planted from September until winter sets in; although if the highest success is sought, they should be in the ground by the end of October.

Bulbs planted early, develop roots in the autumn and these, if protected from injury by freezing and thawing alternately during the winter, enable the bulbs to produce much larger flower spikes than if the roots are not developed till spring. Frost reaching the bulbs raises them up, thus detaching them from their roots. Protection may be afforded by covering the beds with straw, or leaves, to a depth of six or eight inches, which should be removed early in spring.

Hyacinths should be set about six inches below the surface of the ground and about six inches apart.

☞ NOTE OUR ADDRESS ☞

16 & 19 South Market St., Boston.

EXTRA LARGE UNNAMED HYACINTHS.

Farquhar's Selections for Bedding and Forcing.

These are well developed, sound, flowering bulbs vastly superior in size and strength to the so-called Mixed Hyacinths usually offered. Choice sorts only are included in these selections which are grown separately and put together in variety of shades of each color. Care is exercised to include only sorts which bloom at the same time and are of nearly uniform height.

SINGLE VARIETIES.

Yellow07	.80	5.50
All Colors, mixed07	.80	5.50

Twenty-five of a kind sold at 100 rates; 6 at dozen rates.

By mail, add 15 cents per dozen or 2 cents per bulb for postage.

LARGE NAMED BEDDING HYACINTHS.

This highly decorative class of Hyacinths is of unsurpassed excellence for producing the finest color effects in public parks and private grounds. Being of distinct and decided shades, of almost uniform height, and blooming at the same time, they admit of the most artistic grouping.

The bulbs we furnish are sound, of large size, and are selected to produce the largest blooms, under open ground cultivation.

Canary Guano,

The Best in the World, for Greenhouse and Garden.

Perfectly Clean, may be used by a lady.

UNSURPASSED FOR LIQUID APPLICATION.

Provides all the Nutriment required by BULBOUS PLANTS,
CHRYSANTHEMUMS, FERNS, PALMS, Etc.

Sold in large tins as imported; full directions on each. Per original tin, 50 cents.

EARLY ROMAN HYACINTHS.

These beautiful Hyacinths have now become exceedingly popular. Their graceful, feathery, delicately-scented flower spikes, often three or four from a bulb, are indispensable to the florist-in his Autumn and Winter cut flower work; while to the amateur, they are among the most easily cultivated and most satisfactory of flowering bulbs. The white variety, if planted early in September and gently forced, will bloom in November, the others require from two to three weeks longer.

	Each.	Doz.	Per 100
Pure White, good flowering bulbs . . .	\$0.03	\$0.30	\$2.00
Pure White, extra large bulbs05	.45	3.00
Pure White, mammoth bulbs06	.60	4.00
Rose, or Light Pink04	.40	2.50
Blue04	.40	2.50

By mail, add 10 cents per dozen for postage.

WHITE ITALIAN, OR PARISIAN HYACINTHS.

These are about a fortnight later than the Early White Roman Hyacinths, and the blossoms somewhat larger. They are very useful for forcing, being fragrant and decorative. Each, 5 cents; per doz., 50 cents; per 100, \$3.00.

By mail, add 10 cents per dozen for postage.

MINIATURE DUTCH HYACINTHS.

These bloom early, their pretty little flower-trusses being exceedingly fascinating. Being hardy they are available for outdoor as well as house cultivation.

	Each.	Per Doz.	Per 100
Finest Mixed . . .	\$0.04	\$0.35	\$2.50
Red04	.35	2.50
White04	.35	2.50
Blue04	.35	2.50

By mail, add 15 cents per dozen for postage.

MUSK AND FEATHERED HYACINTHS.

Beautiful, hardy, early-flowering bulbs, succeeding in almost any soil and situation.

	Each.	Per Doz.*	Per 100
Musk Hyacinth, yellow and blue; delightfully fragrant . . .	\$0.15	\$1.50	\$10.00
Feathered Hyacinths, violet; long feathery plumes03	.25	1.50

GRAPE HYACINTHS.

Very hardy, dwarf, Spring-flowering bulbs, succeeding in almost any situation and suitable for edgings and clumps in shrubbery and hardy perennial beds.

	Each.	Per Doz.	Per 100
Blue Grape Hyacinths . . .	\$0.02	\$0.10	\$0.75
White Grape Hyacinths03	.15	1.10

HYACINTHUS CANDICANS.

A showy, hardy plant, blooming in July and August, and producing spikes about three feet long, crowned with numerous large pendent bell-shaped pure white blossoms.

Large roots, each, 5 cents; per doz., 50 cents.

By mail, add 2 cents each for postage.

Our importations of Bulbs this season will be the largest and most select ever brought to Boston.

TULIPS.

Our Tulips are grown for us by the leading specialists of Holland and are unrivalled for size and quality.

SINGLE EARLY TULIPS.

FARQUHAR'S RAINBOW MIXTURE. (Trademark Registered.) The varieties included in this mixture are grown separately and are all popular bedding sorts of decided merit. The colors are carefully proportioned, and include white, yellow, pink, scarlet, crimson, and many beautiful shades and combinations of these colors. The sorts are selected to flower at nearly the same time, and to grow about the same height. For massed beds and grouping our Rainbow Mixture is unsurpassed. The bulbs offered are of the largest size and finest quality.

Per doz., **30 cents**; per 100, **\$2.00**; per 1000, **\$16.00**.

Selected Mixture.—Extra quality bulbs, in many beautiful and varied sorts, flowering nearly together. Per doz., **20 cents**; per 100, **\$1.25**; per 1000, **\$11.00**.

Superfine Mixture.—Choice quality bulbs, mixed as imported. Per doz., **15 cents**; per 100, **\$1.00**; per 1000, **\$9.50**.

Fine Mixture.—Good bulbs in great variety. Per doz., **10 cents**; per 100, **75 cents**; per 1000, **\$7.00**.

COLLECTIONS OF SINGLE EARLY TULIPS.

Farquhar's Selection, 100 bulbs, in 25 choice named sorts	2.75
Farquhar's Selection, 100 bulbs, in 10 choice named sorts	2.50

For out-door Spring decoration none of the bulbous plants are quite so popular with us as the Tulip. Being exceedingly hardy, Tulips are seldom injured by the rigour of our winters; they are easily grown and produce the most gorgeous display.

They are equally valuable for winter cultivation in the greenhouse or window.

OUT-DOOR CULTIVATION.—The beds should be made perfectly loose to a depth of fifteen inches and liberally enriched with well-rotted cow manure. The bulbs should be set five inches deep and five or six inches apart. October is the proper time to plant Tulips, although they may be set out during November if the ground remains open. Before winter sets in the beds, like all bulb beds, should be covered with leaves or other mulch to a depth of six inches, to protect the bulbs from freezing and thawing repeatedly. The mulch should be removed early in spring, but a little of it may be loosely replaced over tender shoots above ground for a few days to avoid exposing them too suddenly.

INSIDE CULTIVATION.—The soil should be a compost similar to that recommended for Hyacinths. Tulips are most effective when planted in bulb pans, which should not be less than six inches in diameter: six bulbs in a six inch pan, nine to an eight inch pan and twelve in a pan ten inches in diameter. The bulbs should be planted in October and kept moist in a dark cool place, protected from frost, until they have rooted. Unless wanted for early forcing it is beneficial to keep them dark until the tops have started two or three inches above the soil, when they may be brought gradually to the light.

SINGLE EARLY TULIPS IN SEPARATE COLORS.

These are especially adapted to bedding purposes and design planting for color effects, in blooming nearly together and growing about the same height.

A BED OF FARQUHAR'S GOLD PRINCE SINGLE EARLY TULIPS
on the State House Grounds, Boston. (Engraved from a Photograph.)

COMMONWEALTH OF MASSACHUSETTS.

OFFICE OF SERGEANT AT ARMS,

MESSRS. R. & J. FARQUHAR & Co.,

STATE HOUSE, BOSTON.

Gentlemen:—We consider it a pleasure as well as a duty to write you that the eight thousand Hyacinth and Tulip bulbs furnished by you for the State House Grounds are in full bloom; each and every one absolutely perfect. We are more than satisfied.

Yours truly,

Signed,

G. M. F.

DOUBLE TULIPS.

A very ornamental and useful class, flowering usually about ten days or two weeks later than the Single Early Tulips. They are deservedly popular for bedding in both public and private grounds, the large double pæony-like blossoms being highly decorative and long duration.

FARQUHAR'S RAINBOW MIXTURE. (Trade Mark Registered.) This mixture is composed of the best named sorts of bedding Double Tulips, grown separately and put together in studied proportions. It contains a liberal allowance of the showy light colors, white, yellow, pink, etc.; and all the sorts are selected to be of nearly uniform height and to bloom at nearly the same time. Only large bulbs of finest quality are included.

Per doz., **30 cents**; per 100, **\$2.00**; per 1000, **\$16.00**.

Selected Mixture. Extra quality bulbs in a great variety of beautiful colors. Per doz., **20 cents**; per 100, **\$1.25**.

Superfine Mixture. Large bulbs in choice variety, mixed as imported. Per doz., **15 cents**; per 100, **\$1.00**; per 1000, **\$9.50**.

NAMED DOUBLE EARLY TULIPS.

The bulbs offered are the best produced.

	Each.	Per Doz.	Per 100
Alba Maxima , white; very large	\$0.04	\$0.35	\$2.50
Crown of Gold , rich golden yellow; large flower; very double05	.55	4.00
Crown of Roses , rich rosy carmine; very double; a most charming sort07	.70	5.00
Gloria Solis , deep crimson with yellow edge03	.25	1.50
Helianthus , crimson with wide yellow border03	.30	2.00
Imperator Rubrorum , bright scarlet; very double; large04	.35	2.50
Lady Grandison , vermilion scarlet04	.35	2.50
Le Blason , white shaded with rose; lovely03	.30	2.25
Le Matador , brownish red04	.35	2.50
Lord Beaconsfield , satiny, rosy carmine; large flower; very double; <i>the most beautiful of all Double Tulips; new</i>40	3.75	27.00
Murillo , blush white shaded with rose; large04	.40	2.75
Parmesiano , bright pink; splendid08	.80	6.00
Prince of Wales , brilliant scarlet; magnificent; the largest flower of all Tulips; new10	1.00	7.00

Marriage de ma Fille , white striped with crimson; very beautiful04	.40	3.00
Pæony Gold , golden yellow striped with red03	.30	2.00
Pæony Red , crimson03	.25	1.50
Rex Rubrorum , fine scarlet03	.30	2.25
Yellow Rose , bright golden yellow; large flower; late03	.25	1.50

LATE SINGLE TULIPS.

These flower in May; usually they are in full bloom about Memorial Day. They are very showy and contain colors not found in any other class of Tulips.

	Each.	Per Doz.	Per 100
Bizarres , flowers with yellow grounds, striped or feathered with crimson, purple or white	\$0.03	\$0.20	\$1.25
Byblæmens , white grounds, striped or marked with purple, lilac or black03	.25	1.50
Roses , white grounds marked with scarlet, pink or red. These are most useful for florists, the colors being desirable for cutting purposes03	.25	1.50
Extra Fine Mixed , all colors03	.20	1.25

The following varieties of May-flowering Tulips are very beautiful and have become exceedingly popular both for bedding and cutting use:

Bouton d'Or , (<i>Ida</i>), pure deep yellow, beautiful, large, globe-shaped flowers03	.30	2.25
Gesneriana Major , very large flowers, brilliant scarlet, with blue-black centre; lasts several weeks. An excellent bedding Tulip03	.30	1.50
Golden Eagle , (<i>Yellow Crown</i>), large handsome yellow flowers, with pointed petals edged crimson03	.25	1.50
Isabella , bright rose, flaked with white05	.50	4.00
May Blossom , pure white, beautifully striped with bright rose04	.40	3.00
Picotée , (<i>Maiden's Blush</i>), white, pencilled and margined with bright cerise05	.45	3.50
Summer Beauty , white flaked with rose06	.60	5.00
White Crown , white04	.40	3.00

DARWIN TULIPS.

A new and greatly improved race of the late-flowering, self-colored, Dutch Breeder Tulips. The colors range from the palest lilac to purplish black, including shades of rose, scarlet, crimson, violet, brown, etc. They are exceedingly beautiful for beds and grouping about shrubbery, and are worthy of the popularity they have attained.

Splendid Mixture	\$0.04	\$0.30	\$2.00
Named Sorts in Variety06	.50	4.00

OTHER SPECIES OF TULIPS.

	Each.	Per Doz.	Per 100
Cornuta (<i>Chinese Horned Tulip</i>), yellow, striped scarlet; petals curiously twisted, like spiral horns	\$0.05	\$0.50	\$3.50
Florentina Odorator , yellow; violet scented; very hardy04	.30	2.00
Greigi , intense scarlet, black centre; anthers pure yellow; a magnificent sort12	1.20	8.00
Oculus Solis , (<i>Sun's Eye Tulip</i>), brilliant red with dark centre06	.60	4.50
Persica , yellow and brown; dwarf04	.30	2.25
Retroflexa , deep yellow; large; petals long, tapering and gracefully recurved05	.50	3.50
Viridiflora , green margined with yellow; immense size; odd and beautiful04	.40	3.00

PARROT TULIPS

A distinct species of late-flowering Tulips, producing enormous flowers of most brilliant colors and interesting forms. The flowers before opening resemble the neck of a Parrot, and the petals are curiously cut or fringed. These Tulips are exceedingly showy and worthy of more general cultivation.

	Each.	Per Doz.	Per 100
Admiral of Constantinople , dark red; large flowers	\$0.04	\$0.30	\$2.00

Markgraaf , yellow, scarlet and green striped; large04	.30	2.00
Monstre Rouge , beautiful deep scarlet; large flower; very handsome12	1.20	9.00
Perfecta , red and yellow striped04	.30	2.00
Finest Mixture , all colors of Parrot Tulips03	.25	1.25

Parrot Tulip.

NARCISSUS.

Narcissus Trumpet Maximus.

Among cultivators the commercial florists have been foremost to give the Narcissus or Daffodils the attention due them. They have learned how easily and successfully these lovely flowers may be forced into bloom during winter (even as early as Christmas) and how fascinating and lasting are the blossoms. They may be planted in pots or bulb pans six inches or more in diameter, several bulbs in each, according to size, and treated in the same manner as Hyacinths.

Narcissi are equally desirable for spring bedding. They should be planted in October or early in November to produce the best results. The bulbs should be set from four to five inches deep; the larger sorts five or six inches apart, and the small varieties three to four inches. They should never be planted in very windy situations. Groups of Daffodils in borders of hardy herbaceous plants and along the edges of shrubby beds are exceedingly effective and delicately beautiful. They are charming, too, planted in beds, especially when combined with an undergrowth of the blue Scilla Siberica, Forget-me-not, or other dwarf spring flowers.

R. & J. FARQUHAR & Co.,

FAIRLAWN, NEWPORT, R I., Jan. 6, 1899.

Gentlemen: — The Bulbs you sent me were remarkably fine. The Lily-of-the-Valley was the best I have ever seen, reducing 13 to 14 bells on a spike. Everything sent was highly satisfactory.

Yours very truly,

HARRY J. WESTLEY,
Gardener for I. T. Burden.

LARGE TRUMPET NARCISSUS.

	Each.	Per Doz.	Per 100
Abscissus , long, rich yellow trumpet, sulphur perianth, flowers late . . .	\$.04	\$0.35	\$2.50
Ard Righ (<i>Irish King</i>), large rich yellow trumpet, perianth, deep yellow; early10	1.00	7.50
Ceruus (<i>Drooping White Spanish Daffodil</i>), trumpet silvery white, perianth pale primrose10	.90	6.00
Countess of Annesley , rich yellow, a fine early sort20	2.00	15.00
Emperor , immense flower, trumpet clear golden yellow, perianth deep primrose, often three and a half inches across; fine forcing sort12	1.25	10.00
Empress , rich yellow trumpet with broad white perianth; a flower of great size and substance; one of the finest daffodils; forces well12	1.25	9.00
Golden Spur , very large and fine flower, immense golden trumpet, reflexed at the lip; perianth very broad08	.80	6.00
Grandis , large golden yellow trumpet; perianth white, broad and finely imbricated; one of the best of the <i>Bicolor</i> type; a little later than <i>Horsfieldii</i>12	1.25	10.00
Henry Irving , a noble flower of rich golden yellow; trumpet large and wide, recurved at the lip, petals of the perianth broad and overlapping; very handsome10	1.00	7.00
Horsfieldii , (<i>King of the Daffodils</i>), one of the best daffodils for forcing and bedding; trumpet of enormous size, deep golden yellow; perianth white; a striking flower10	1.00	7.00
Johnstoni, Queen of Spain , a distinct sort with reflexed perianth; flower sulphur yellow; early12	1.25	10.00
Michael Foster , large free-blooming sort; large, deep yellow trumpet; perianth creamy white20	2.25	15.00
Moschatus , (<i>White Spanish Trumpet Daffodil</i>), trumpet and perianth white; very fragrant08	.80	6.00
Nanus , pretty dwarf; early daffodil, with clear yellow flowers; height about six inches03	.20	1.50
Obvallaris (<i>Tenby Daffodil</i>), bright yellow; erect growing sort of fine form, with wide trumpet and broad perianth; excellent for forcing and bedding05	.55	4.00
Pallidus Præcox , trumpet pale sulphur yellow; perianth almost white; very early06	.60	4.50
Princeps , large yellow trumpet; perianth pale primrose; excellent forcing sort03	.25	2.00
Pseudo Narcissus (<i>The Garland or Lent Lily</i>), rich yellow trumpet; whitish perianth03	.20	1.50
Rugilobus , large golden yellow trumpet; perianth primrose often three inches broad; free-blooming; excellent for forcing and bedding04	.45	3.00
Scoticus , elegant sort with deep yellow, beautifully serrated; perianth white; fine for forcing . . .	-.05	.50	3.50
Spurius , one of the finest Trumpet Daffodils; self-colored clear yellow; large wide-mouthed trumpet; excellent forcing and bedding sort05	.40	3.00
Trumpet Major , trumpet and perianth deep golden yellow; flower large, very effective; the most popular daffodil for both forcing and bedding03	.25	1.75
Trumpet Major Selected Northern-Grown Bulbs05	.35	2.50
Trumpet Maximus , immense size, trumpet deep golden yellow, gracefully recurved and fringed, perianth deep yellow, elegantly twisted03	.80	6.00
Trumpet Minor , a miniature form of Trumpet Maximus, growing only about five inches high, similar in color, and having the trumpet recurved and the perianth twisted like that variety; very interesting04	.30	2.00

CORBULARIA OR HOOP PETTICOAT NARCISSUS.

	Each.	Per Doz.	Per 100
Bulbocodium (<i>Yellow Hoop Petticoat</i>), dwarf variety with deep golden yellow flowers, a number of which are produced by each bulb. It is very pretty when forced; six to eight bulbs in a six inch pan. It is also charming for edges of beds and is very hardy . . .	\$0.10	\$0.90	\$7.00
Bulbocodium Monophyllus (<i>Algerian White Hoop Petticoat</i>), pure white; very early07	.75	5.50

MEDIUM TRUMPET NARCISSUS.

This class includes many of the most beautiful and useful daffodils, with flowers often from three to five inches across. The characteristic feature of this section is that the trumpet is usually half the length of the divisions of the perianth, giving the flower a very refined form. In flowering they follow the Large Trumpet Narcissus. They are equally desirable for open-ground cultivation and forcing in the green-house or window.

	Each.	Per Doz.	Per 100
Backhousei William Wilkes , imbricated white perianth; wide, orange yellow cup	\$0.10	\$1.00	\$8.00
Barrii Conspicuus , large broad spreading perianth, primrose yellow; crown yellow conspicuously edged with orange-scarlet15	1.50	10.00
Incomparabilis (<i>Star or Great Nonesuch Daffodil</i>), perianth light yellow; trumpet deep yellow; variable04	.30	2.25
Incomparabilis Cynosure , large showy flower of free growth, primrose-white perianth with bold orange-scarlet crown; a beautiful daffodil; forces well03	.30	2.25
Incomparabilis Princess Mary , immense creamy white perianth, with large spreading yellow crown suffused with orange scarlet50	5.00	35.00
Incomparabilis Sir Watkin (<i>Giant Welsh Daffodil</i>), large primrose perianth, frequently over five inches across; cup rich golden yellow, elegantly fringed; one of the finest daffodils15	1.50	12.00
Incomparabilis Stella , pure white perianth, with bright yellow crown; very early and easily forced03	.15	1.00
Leedsii , white perianth; cup pale primrose changing to white; fragrant; excellent for both forcing and open-ground cultivation03	.20	1.50
Leedsii Amabilis , very large pure white perianth, with long lemon-yellow crown; very beautiful05	.50	3.50
Leedsii, Duchess of Brabant (<i>Vincenti</i>), elegant white perianth small canary yellow cup; a charming variety03	.25	1.50
Nelsoni Major , large white perianth: long, fluted, bright yellow cup; excellent for forcing; second early15	1.50	10.00
Triandus Albus (<i>Cyclamen-flowered Narcissus or Angel's Tears</i>), very interesting and beautiful; small daffodil with creamy white flowers05	.50	4.00

POET'S AND OTHER SHORT-CUPPED NARCISSUS.

	Each.	Per Doz.	Per 100
Biflorus (<i>Primrose Peerless Daffodil</i>), pure white with yellow cup, bearing two flowers on each stem	\$0.03	\$0.15	\$1.00
Burbidgei , perianth white with yellow cup edged with scarlet; resembling Poeticus but much earlier03	.25	1.25
Poeticus (<i>Pheasant's Eye, or Poet's Narcissus</i>), pure white, with red crown; very fragrant; hardy; excellent for cutting02	.15	.75
Poeticus Grandiflorus , the largest of the type, pure white perianth, cup suffused with crimson25	2.50	18.00
Poeticus Ornatus , large symmetrical flowers; broad white perianth with red crown, very early; beautiful and valuable for forcing and cutting03	.25	1.50
Poeticus Poetarum , large, bold flower; perianth pure white, with the entire crown crimson; very striking and beautiful06	.60	4.00

If you do not receive our Spring Catalogue, send us a postal card with your full address, also the addresses of any of your friends who might like it. Our Flower and Vegetable Seeds are the finest sold.

IDAHO STATE HORTICULTURAL SOCIETY,

Secretary's Office, Nampa, Idaho, March 13, 1899.

MESSRS. R. & J. FARQUHAR & Co.,

Dear Sirs:—I have for more than a dozen years used seeds from your house and have always found them up to date, and "Seeds that Grow," the best of the kind. I send you an order enclosed herewith, etc.

Yours,

ROBERT MILLIKEN.

DOUBLE FLOWERING NARCISSSUS.

Double Narcissus
Von Sion.

The variety which is most extensively used by gardeners and florists for Winter and Spring forcing. Our bulbs are grown in Holland where they attain the highest development.

	Each.	Per Doz.	Per 100
Alba Plena Odorata (<i>Double Poet's or Gardenia-flowered Narcissus</i>), large, double, pure white flowers, in sweetness and purity rivalling <i>Gardenia</i> blossoms; valuable for cutting	\$0.03	\$0.20	\$1.00
Alba Plena Odorata, Northern-grown Bulbs , extra large04	.30	1.75
Incomparabilis Plenus (<i>Butter and Eggs</i>), large, double yellow flowers, with orange centre; excellent both for forcing, for winter cutting, and for spring flowering in the open ground03	.20	1.25
Orange Phœnix (<i>Eggs and Bacon</i>), large double white flowers, with rich orange segments in the centre; very effective and desirable for both forcing and out-door planting05	.40	3.00
Sulphur or Silver Phœnix (<i>Codlins and Cream</i>), one of the finest double sorts, with large, pale, creamy white, fragrant flowers; Excellent for pot culture15	1.75	14.00
Von Sion (<i>Telamonious Plenus</i>), the renowned "Old Double Yellow Daffodil." Flowers deep golden yellow; large and very decorative; the most extensively grown of all daffodils for florists' use04	.35	2.50
Von Sion, Northern-grown Bulbs , the largest and finest type of this most popular Narcissus; extra size bulbs05	.40	3 00

MIXED NARCISSSUS OR DAFFODILS,

	Each.	Per Doz.	Per 100
Mixed Large Trumpet Narcissus	\$0.03	\$0.25	\$1.25
Mixed Medium Trumpet Narcissus03	.25	1.00
Mixed Double Narcissus03	.25	1.00

NARCISSUS JONQUILLA OR JONQUILS.

The delicately graceful forms, delicious fragrance, and deep yellow color of their blossoms, have made the Jonquils favorites of the amateur and necessities with the florist. They are easily forced, and if started early may be flowered by Christmas, or even earlier. Plant six or eight bulbs in a six inch bulb pan, covering the crowns half an inch, and treat them in the same manner as suggested for Hyacinths.

Each. Per Doz. Per 100

Double, Sweet Scented , fine deep yellow	\$0.05	\$0.50	\$3.50
Single, Sweet Scented , deep yellow; free blooming03	.15	1.50
Campernelle , large deep yellow flowers, excellent for cutting03	.25	1.00
Rugulosus , rich yellow; very fragrant flowers; the largest Jonquil05	.30	1.75
Silver Jonquil , (<i>Narcissus Tenuior</i>), pale primrose flowers on slender stems, very graceful05	.50	3.50

Double Jonquils.

CHINESE SACRED NARCISSUS.

Joss Flower or Oriental New Year's Lily.

These may be grown in pots of earth, but are more interesting and very satisfactory in bowls partially filled with pebbles and water. As the roots develop they form a net-work about the pebbles, thus supporting the plant when in bloom. They should be started and grown in bright light, but carefully protected from draughts. The flowers are mostly white with yellow cups and are very fragrant.

In visiting China recently, we learned that the best bulbs are produced near Canton, and we have arranged for a supply from that locality.

Chinese Sacred Narcissus.

We make a Specialty of fine Grass Seeds for **LAWNS, PUTTING GREENS, GOLF LINKS, Mowing and Pasture Lands.** Our formulas and mixtures are personally prepared by Mr. James Farquhar. Our Grass Seeds have been extensively used in the new Boston Parks.

POLYANTHUS NARCISSUS.

A very decorative class of bulbous plants for greenhouse and window cultivation, but not hardy out of doors in our climate. They produce enormous trusses of delicately fragrant flowers, varying in color from snowy white to deep yellow. Treat the bulbs in the same manner as noted for Hyacinths, except that the bulbs should be set half an inch deeper in the soil. They may be easily and quickly forced; our florists frequently have them in bloom by Thanksgiving.

	Each.	Per Doz.	Per 100
Early Paper White , pure white, excellent for early forcing; largely used by florists	\$0.03	\$0.25	\$1.25
Early Snowflake (<i>New Large-flowering Paper White</i>), the earliest, largest and most vigorous form of the <i>Paper White</i> ; the best of all for very early forcing	.05	.30	1.75

CROCUS.

With the first breath of spring the Crocus appears, often early in March. Its hardiness and earliness has made it one of the most cherished spring flowers. It is also highly ornamental, not only for bordering flower beds and shrubbery groups, but for planting in lawns, either promiscuously or in arrangements of color. The bulbs should be set three inches deep, and should be planted in October or early in November to insure success. They are very effective when combined with Snowdrops, Scilla Siberica, Daffodils and other spring flowers. The Crocus can also be grown indoors either in pots or bulb pans in loam; or, in dishes filled with wet moss in which the bulbs are set closely, half an inch below the surface.

ACIDANTHERA BICOLOR.

A valuable new bulbous flowering plant for greenhouse or open-ground cultivation. Each flower stalk produces from four to eight widely expanded very fragrant flowers, of creamy white color with broad violet-maroon blotches. The flowers are of very lasting character, and being borne on long stems are most excellent for bouquets and table decorations. The bulbs should be treated in the same manner as Gladioli both for forcing and open-ground cultivation. Bulbs ready for delivery in November. Each, **25 cents.**

Acidanthera Bicolor.

ADONIS VERNALIS.

Hardy perennial plant with beautiful cup-shaped yellow flowers and delicately divided leaves; height, six inches. **20 cents** each; **\$2.00** per doz. **By mail, 25 cents** each.

AGAPANTHUS. African Lily.

Handsome summer and autumn flowering plants, throwing up large umbels of twenty to thirty blossoms. They should be grown in pots or tubs in soil similar to that suggested for Hyacinths. They are particularly suitable for piazza or terrace decoration, and may also be forced in the greenhouse.

Umbellatus, fine blue. Each, **25 cents**; by mail, **35 cents**.

Umbellatus Albus, white. Each, **40 cents**; by mail, **50 cents**.

ALSTREMERIA.

Alstroemeria Aurantiaca.

A beautiful class of Summer-flowering bulbous plants, growing about three feet high and bearing large clusters of handsome lily-like flowers varying in shades of yellow, rose, crimson and maroon. Set the roots six inches deep and protect during winter with a heavy covering of leaves or litter.

	Each.	Per Doz.
Aurantiaca , rich, deep orange spotted with crimson; very beautiful; excellent for cutting	\$0.10	\$1.00
Chiliensis Seedlings , in great variety of charming colors, among the most desirable of summer flowers for bouquets and vases10	1.00

Begonia Gloire de Lorraine is one of the most charming winter-blooming plants.

MANCHESTER GREEN, CONN., Feb. 28, 1899.

MESSRS. R. & J. FARQUHAR & CO.,

Dear Sirs: — The "Gloire de Lorraine" is the gem of my Begonia collection. It has been a mass of lovely bloom ever since November, and shows no signs of dropping blossoms yet. It is the first plant I ever owned that far excelled the picture of it in the floral catalogue. It seem as if it would exhaust its vitality. I feel very grateful to you for introducing such a plant to me.

Very sincerely yours,

H. E. S.

AMARYLLIS.

Each. Per Doz.

- Belladonna Major** (*Belladonna Lily*), flowers white, flushed and tipped with deep rose; extra large bulbs . \$0.25 \$2.50
- Defiance**, rich carmine, striped and suffused with white75 7.50
- Equestris**, scarlet, with broad white stripes extending from the throat, to half-way up the segments30 3.00
- Formosissima** (*Jacobean Lily*), dark crimson . . .15 1.75
- Hippeastrum, New Hybrids.**
The finest race of Amaryllis in cultivation; exceeding in the size and fine form of their flowers as well as in the diversity of colors and markings, all former hybrids. The segments are of nearly uniform size, giving the flowers a regular trumpet form 1.25 12.00

ANEMONES.

None of the spring flowers surpass the Anemone in brilliancy of color and profusion of bloom. They are very lasting, and have of recent years become very popular for cut-flower use, and for table decorations. The florists now buy thousands of them to force. Plant in October or November, six roots in a six-inch pot or bulb pan, covering them one inch. They may be kept in a cellar or frame protected from frost till spring, when they may be placed in the greenhouse or window to bloom.

ANEMONE JAPONICA.— See page 24.

ARUM.

Ornamental plants with calla-shaped leaves and flowers; curious and interesting.

	Each.	By Mail.
Dracunculus (<i>Dragon Flower</i>), large, purple flowers and curiously marbled stems	\$0.15	\$0.20
Italicum , spotted, yellow foliage10	.15
Sanctum , (<i>Black Calla</i>), large, purple flowers15	.20

ASPHODELUS LUTEUS.

Ornamental hardy border plant growing about two feet in height; flowers yellow. Each, 10 cents; per doz., \$1.00.

ANEMONE JAPONICA.

Autumn-flowering Japanese Anemones.

Anemone Japonica.

Very ornamental hardy plants, flowering early in September and continuing into November. They grow about three feet in height, and the long-stalked, erect flowers are strikingly beautiful. The plants should be protected with pine boughs or coarse straw during winter.

	Each.	Per Doz.
Alba (<i>Honorine Jobert</i>), large, single, pure white flowers with yellow centres	\$0.20	\$2.00
Appleblossom , bluish, very pleasing shade30	3.00
Rosea , rosy pink, large and free blooming20	2.00
Whirlwind , large double white flower, yellow centre20	2.00

BABIANA.

Charming spring-flowering plants for the greenhouse, with dark green, hairy leaves; in habit resembling Sparaxis. The colors range from pale lavender and delicate pink to violet and crimson, and are very effective. Plant six or eight bulbs in a six-inch bulb pan.

	Each.	Per Doz.
Mixed Varieties , many elegant colors	\$0.04	\$0.40

BRODIÆA.

Half-hardy bulbs, bearing clusters of long tube-shaped flowers, well adapted to pot culture.

	Each.	Per Doz.
Coccinea (<i>Fire Cracker Plant</i>), crimson flowers tipped green	\$0.05	\$0.50
Congesta , violet purple flowers in large umbels05	.50
Grandiflora , bright blue05	.50
Laxa , fine purplish blue, lasting a long time05	.50

BULBOCODIUM VERNUM. Meadow Saffron.

One of the earliest-blooming, hardy spring flowers, with rosy purple crocus-like blossoms, four inches high. Plant the bulbs four inches deep. Each, **3 cents**; per doz., **30 cents**; per 100, **\$2.00**.

CALOCHORTUS. Mariposa or Butterfly Tulips.

These Californian flowers somewhat resemble the Tulip in shape and erect habit of growth. The colors include shades of white lilac, crimson, yellow and blue; many of the flowers being veined spotted or edged with deep yellow. They may be forced in the greenhouse, planted in protected cold frames or set out of doors in May or June.

	Each.	Per Doz.	Per 100
Finest Varieties Mixed	\$0.05	\$0.30	\$2.00

CALLA. Richardia.

The temperature for Callas should be rather warm; the soil open and rich, and they should be liberally watered. Callas will bloom continually summer and winter if kept in growing condition, or they may be allowed to dry off and remain dormant a portion of the year.

	Each.	Per Doz.
<i>Æthiopica</i> (<i>Common White Calla or Lily of the Nile</i>)	\$0.15	\$1.50
<i>Æthiopica, Extra Large Bulbs</i>20	2.00
Little Gem. Miniature White Calla, grows only about a foot high and bears many flowers, half the size of those of the common White Calla20	2.00
<i>Alba Maculata</i> (<i>Spotted Leaf Calla</i>). Leaves spotted with white; flowers white; hardy in New England, with slight covering during winter15	1.50
<i>Hastata</i> (<i>Yellow Calla</i>), flowers deep yellow; a splendid new sort50	5.00
Black Calla (<i>See Arum Sanctum</i>).		

By mail, add at the rate of **20 cents** per dozen, for postage.

CAMASSIA ESCULENTA.

A pretty, hardy spring-flowering plant, with dark blue flowers, resembling those of the Scilla campanulata. Each, **4 cents**; per dozen, **25 cents**; per 100, **\$2.00**.

CHIONODOXA. Glory-of-the-Snow.

The most beautiful of dwarf blue spring flowers, resembling those of Scilla Siberica, but larger, slightly taller and more handsome. The Chionodoxa is very hardy, thriving in any ordinary garden soil and in almost any situation. The bulbs continue to flower from year to year. They are also excellent for forcing.

	Each.	Per Doz.	Per 100
Luciliae , bright sky-blue flowers with large white centres \$0.03	\$0.20	\$1.25

CONVALLARIA. (See Lily-of-the-Valley.)

CYCLAMEN PERSICUM GRANDIFLORUM.

These charming winter and spring blooming plants have now become indispensable in both commercial and private greenhouses. They are likewise prized for window culture, being most easily grown, and lasting in full bloom for months. Plant the roots, leaving the crowns exposed, in a compost of decayed sod, leaf-mould and well-rotted cow manure, adding some sand and pulverized charcoal. They should be kept rather cool and the soil evenly moist.

Our *Cyclamen* received the highest award at the *World's Fair* in competition with the world. The roots we offer are raised in our own greenhouses.

Dens Canis, Mixed04	.30
Giganteum , large creamy white flowers10	1.00

ERANTHIS HYEMALIS. Winter Aconite.

The earliest spring-flower, the large golden yellow Buttercup-like blossoms often expanding in the snow; height six inches; a charming plant. Per dozen, **20 cents**; per 100, **\$1.50**.

FREESIA.

Of all South African flowering bulbs this is doubtless the best known and most esteemed. The gracefully branched, fragrant flowers are of long duration, and being freely produced are profitable for commercial purposes, and satisfactory to amateurs. If planted early they may be had in bloom by Christmas. Plant eight or ten bulbs in a six inch bulb-pan covering them one inch.

	Per Doz.	Per 100
Refracta Alba Odorata , flowers pure white with yellow throat; fragrant, and lasting for two weeks in water when cut	\$0.20	\$1.25
Refracta Alba Odorata , Extra Large Bulbs30	2.00
Freesia Leichtlini , flowers primrose yellow with a small orange blotch on each petal; very fragrant25	1.50

Freesia Refracta Alba Odorata.

FUNKIA. Day Lily.

This is a free-growing, hardy border plant, producing spikes of large lily-like flowers, which are fragrant and strikingly beautiful in contrast with the luxuriant dark green foliage.

	Each.	Per Doz.
Subcordata Grandiflora (<i>White Day Lily</i> .) Beautiful pure white blossoms, resembling those of the Bermuda Easter Lily	\$0.25	\$2 50
Variiegata , dwarf habit; leaves widely margined with white; flowers purple; excellent for edgings25	2.50

FRITILLARIA MELEAGRIS.

GUINEA HEN FLOWER.

Exceedingly pretty, dwarf, Spring-flowering plants, with large pendant, bell-shaped flowers of white, yellow, brown and purple, usually striped or mottled. They are desirable for both house and garden cultivation. Out-of-doors the bulbs should be planted four inches deep; they are quite hardy.

	Each.	Per Doz.
Finest Mixed , narrow leaved	\$0.04	\$0.30
Pure White , narrow leaves, very beautiful06	.60
New, Large-Leaved Varieties , mixed06	.60

Fritillaria Meleagris.

GALTONIA.

See Hyacinthus Candicans.

EARLY FLOWERING GLADIOLI.

These Gladioli are now extensively used by gardeners and florists for winter forcing; the dwarf, branching, gracefully-formed flowers being excellent for cut flower use. If the spikes are cut and placed in water when the first blossoms appear, they will keep expanding and remain beautiful for a week or two. Five or six bulbs planted in six-inch bulb-pans or pots, make charming groups for conservatory or window decoration; the bulbs should be set an inch and a half deep.

Gladiolus Colvillei Alba.

	Per Doz.	Per 100
Blandus , blush rose, very early	\$0.60	\$4.00
Byzantinus , rosy purple, early30	1.50
Colvillei , rosy purple and lilac, striped white20	1.00
Colvillei Alba (<i>The Bride</i>), excellent forcing variety, producing compact spikes of pure white flowers of long duration. If planted in the open ground and protected from frost, they commence to bloom in July20	1.00

GLOXINIAS.

Our strains of these are the finest in cultivation, being the production of leading European specialists. The roots should be planted in pots 5 or 6 inches in diameter, slightly covered, and sparingly watered until well started. They require a warm temperature.

	Each.	Per Doz.
Choicest Sorts , mixed, flowering roots	\$0.15	\$1.50
Choicest Sorts , Large Roots, mixed25	2.50

HELLEBORUS NIGER. Christmas Rose.

The Christmas Rose is almost hardy and if grown in cold frames with protection from frost, will produce its beautiful blossoms freely throughout the winter and spring. The flowers are about three inches in diameter; pure waxy white shaded with crimson-purple.

Each, **35 cents**; per doz., **\$3.50**. By mail, add **5 cents** each for postage.

HEMEROCALLIS. Day Lily.

Showy hardy plants for herbaceous borders and grouping among shrubs, bearing a succession of large, fragrant trumpet-shaped flowers, from midsummer till frost.

	Each.	Per Doz.
Aurantiaca Major (<i>Japanese Giant Day Lily</i>), magnificent trumpet-shaped blossoms, very broad petalled and often six inches across; of rich orange color; very fragrant. (<i>The flowers of this new variety are so large and handsome that its discoverer, whom we met while visiting Japan recently, said, that on first seeing it, he thought he had found a deep orange form of Lilium Longiflorum</i>)	\$0.50	\$5.00

By mail, add 5 cents for postage.

IRIS. Fleur-de-Lis.

An extensive and varied class of plants, which flower chiefly in the early summer and are mostly hardy. They require rich soil and abundance of water. The finest blooms are obtained from established clumps, consequently when planted they should remain undisturbed. Set the roots in clumps of three or more, four inches deep, and protect with leaves or other mulch during winter.

	Each.	Per Doz.
Anglica Mixed (<i>English Iris</i>), large flowers of many colors, including white, lilac, lavender, crimson, blue and purple in self colors and mottled; excellent for cutting; these Irises succeed best in moderately moist soil	\$0.03	\$0.25
Anglica Mont Blanc , large pure white flower, excellent for cut-flower use; easily forced05	.40
Germanica Mixed (<i>The True Fleur-de-Lis</i>), large, fragrant, Orchid-like flowers embracing many shades of blue, lavender, yellow, white and purple; many of them beautifully mottled; they are excellent for decorating the edges of ponds and moist grounds10	1.00
Germanica Blue15	1.50
Germanica White15	1.50
Germanica Yellow15	1.50

By mail, add 5 cents each for postage, on Iris Germanica.

Hispanica (<i>Spanish Iris</i>), a dwarf species of great value for forcing, with most beautiful flowers of pleasant perfume. The colors comprise white, yellow, bronze, blue and purple, and in many of them striking combinations of these colors occur. If planted out of doors, they should be put in well-drained land, and afforded mulch protection in winter02	.15
Histroides , large, light blue flowers with dark spots; sweet scented; very hardy; if forced under glass may be had in bloom by Christmas; very decorative as a cut flower.20	2.00
Lortetii , a beautiful variety from Palestine; the standards creamy white, veined with red-brown; the drooping petals pale lilac, veined and spotted with red-brown with a spot of crimson-purple at the throat; one of the finest Irises50	5.00
Pavonia (<i>Peacock Iris</i>), a lovely dwarf species for pot culture; flowers white with a bright blue spot on each petal05	.50
Reticulata , one of the earliest; flowers rich violet-blue reticulated with yellow black; violet scented20	2.00
Susiana (<i>The Mourning Iris</i>), flowers of enormous size, blush tinted brown with a net-work of purple-brown lines20	2.00
Tuberosa (<i>Snake's Head Iris</i>), flowers velvety black and green; curious10	.80

IRIS KÄMPFERI. Japanese Iris.

In these we find combinations of form and beauty far excelling any other type. The stately flowers are often 8 or 10 inches in diameter, and of wonderfully varied and beautiful colors. They include pure white lightly veined with pale yellow, delicate shades of lilac, lavender and light blue, bright shades of rose and crimson, rich coppery red, claret, purple, violet and dark blue; in most of them the throat is blotched with deep yellow, and in some a veination of the same color over the entire flower, contrasting beautifully with the ground color.

This class particularly requires a rich, moist soil, which should be kept saturated while the flower spikes are being developed and while the plants are in bloom. *Roots ready in October.*

LACHENALIAS.

Beautiful bulbous plants for greenhouse and window decoration, of very easy culture. The flowers are tubular, borne on erect spikes and of long duration. The leaves are long and broad, somewhat drooping and beautifully spotted. If started early they may be had in bloom by Christmas. Plant five or six bulbs in a six-inch bulb-pan, one inch deep.

	Each.	Per Doz.
Nelsoni, long spikes of bright golden yellow flowers; new	\$0.30	\$3.00
Pendula, crimson, tipped with yellow and green15	1.50
Quadricolor, scarlet, yellow and green15	1.50
Tricolor, yellow and red, tipped green15	1.50

LILIES.

No class of Bulbous plants supercedes the Lilies in stately decorative effect, elegance of form, richness of color and fragrance combined. The amateur, commercial florist and landscape gardener employ them more and more each year; their hardiness, adaptability, luxuriant florescence and long duration rendering them indispensable for purposes of decoration in every line of floriculture.

LILIES FOR FORCING.

The bulbs may be potted from August onward in a compost of equal parts turfy loam, leaf mould, rotten cow manure and sand. It is best to start them in pots not exceeding twice their own diameter, in which they may remain till started eight inches or more. They should be transferred then to larger pots in which to bloom, exercising great care not to disturb the roots or break away the soil from about them, and setting them considerably deeper in the larger pots. This method prevents the soil becoming sour, and enables the roots forming at the base of the stem to become feeders, greatly increasing the number and size of the blossoms.

LILIES FOR THE OPEN GROUND.

The increased production of many varieties of these in Japan has greatly reduced their cost, and in consequence their use has now become very general.

It is our opinion that we should plant the bulbs much deeper than we have done heretofore. While travelling in Japan recently, we found that the bulbs of the wild Lilies were usually twelve to eighteen inches below the surface, and we gathered the finest flowers from specimens growing on mountains of decaying lava where they had abundant rainfall and ample drainage. We believe that varieties like *Auratum* and *Speciosum* would be favored by being set ten or twelve inches deep and would be less affected by frost and drought. The beds should be thoroughly covered with leaves or litter during winter.

Many of the late-flowering sorts cannot be shipped until October; persons desiring to plant in the autumn should therefore prepare the beds and cover them with leaves to prevent the ground freezing until the bulbs arrive.

☞ The following Lilies sent by mail at the price of single bulbs.

	Each.	Per Doz.
Auratum (<i>Golden-rayed Japanese Lily</i> .) flowers 6 to 8 inches in width, pure white with a wide band of gold running through the centre of each petal and numerous crimson spots	\$0.20	\$2.00
Auratum, extra large bulbs30	3.00
Auratum Pictum , a broad yellow or red band extends from the base to the tip of each petal40	4.00
Auratum Vittatum Rubrum , flowers pure white with broad crimson band in the centre of each petal; numerous crimson spots75	7.50
Batemanni , a Japanese variety, growing 3 feet high, with six to eight apricot colored flowers on a stem; blooms in July and August25	2.50
Browni , large trumpet-shaped flowers, interior pure white, exterior purplish brown; very beautiful40	4.00
Canadense , (<i>Canadian Bell-Flower Lily</i> .) one of our most beautiful native lilies, flowers bright yellow, with black spots10	1.00

Wallacei , orange scarlet, spotted with maroon, 3 feet, September20	2.00
Wallachianum Superbum , a magnificent new Lily introduced by officers of the British Army from India. The flowers are trumpet-shaped, primrose yellow, lightly streaked with light purple, height 4 to 6 feet, September, very scarce	2.00	20.00

LILY OF THE VALLEY.
CONVALLARIA.

For open ground planting we offer large clumps, each containing many flowering crowns. These may be set from six inches to a foot apart and covered three inches. They succeed best in ground which is rather moist and partially shaded.

For forcing the pips are to be preferred, being grown under conditions tending to promote vigorous and early blooming. Twelve to eighteen pips may be planted in a 6-inch pot, with all the fibrous roots carefully preserved, and keeping the crowns above the soil. Place them in a temperature of about 80 degrees, cover the crowns with loose moss and keep them constantly moist with tepid water. They should flower in about five weeks.

Ready for delivery in November.

	Per Doz.	Per 100

HARDY PÆONIES.

These old fashioned, hardy plants are coming into popularity again, not so much the old sorts, however, as new forms and colors, which we have received from world-searching plant collectors and hybridists.

The "Botan" (*P. Moutans*) of the Japanese is one of the most valuable additions, many of the huge single, semi-double or *full* double flowers measuring 10 or 12 inches across and including in their type innumerable charming shades of white, blush, pink, rose, scarlet and crimson. There are also many magnificent new varieties of the Double Chinese Pæony.

Pæonies succeed best on rich, well-drained, sunny land, where they can be liberally supplied with water during the early summer months.

	Each.	Per Doz.
Double Varieties, Flowering Plants , in many beautiful colors, mixed	\$0.25	\$2.50
Double Varieties, Extra Large Plants , mixed50	5.00

We also carry **Cedar Plant Tubs**, price list on application.

BEGONIA GLOIRE DE LORRAINE.

Of all Winter-Blooming Plants, **Begonia Gloire de Lorraine** and its varieties, are the most lavish in their production of flowers. From October until May, the plants are so profusely covered with blossoms as to almost conceal the foliage. The flowers of **Begonia Gloire de Lorraine** are of a bright salmon-rose color, growing in large gracefully drooping panicles. Since its introduction this plant has been constantly gaining in popularity, so that the supply has been quite inadequate.

MR. WILLIAM FALCONER, Superintendent of Schenley Park, at Pittsburg, Penn., writing us, Feb. 25, 1899, says: "Begonia Gloire de Lorraine received today. It is a very beautiful little plant and so full of blossoms. It is one of the real good things of recent introduction."

The plants we offer have not been forced, but have been cool-grown and are stout and stocky. With ordinary care they should remain in full bloom for several months, either in the house or conservatory.

Plants, from 2¼ inch pots, each, 20 cts.; per dozen, \$2.00; by mail, each, 30 cts.

Plants, from 4 inch pots, each, 35 cts.; per dozen, \$3.50; by mail, each, 50 cts.

Plants, in 6 inch pans, each, \$1.00; per dozen, \$10.00; by express only.

Begonia Gloire de Lorraine.

BEGONIA CALEDONIA.

The White Variety of Begonia Gloire de Lorraine.

Last year European horticulturists were startled by the unexpected appearance of a pure white variety of **Begonia Gloire de Lorraine**, which when exhibited in London received the well merited distinction of the First Class Certificate of the Royal Horticultural Society. Desirous of placing this new plant within the reach of our customers at the earliest moment, our MR. JAMES FARQUHAR, made a special trip to Europe, and arrangements were made with the Originator that enable us now to offer in the United States the only plants which have passed out of his hands for simultaneous delivery with him.

CALEDONIA has the same beautiful foliage as "Gloire de Lorraine," the same habit, the same height, the same marvelous floriferousness, the same persistency of petal, the same continuity of flowering, while it has proved itself of even more vigorous and robust growth.

Plants, for delivery about Nov. 1st, each, \$5.00.

BEGONIA GLOIRE DE LORRAINE, Nana Compacta.
OUR OWN NOVELTY.

Begonia Gloire de Lorraine, Nana Compacta.

One third natural size.

This beautiful Begonia differs from Gloire de Lorraine in being of upright instead of drooping habit, bearing enormous trusses of bright salmon-rose flowers, lighter than those of the parent, of larger size, more numerous and lasting much longer. Many of our plants grown in 4-inch pots, last season carried from 300 to 400 fully expanded blossoms at one time.

Plants from 2½ inch pots, each 20c.; per doz., \$2.00; by mail, each 30c.
Plants from 4 inch pots, each 35c.; per doz., \$3.50; by mail, each 50c.
Plants in 6 inch pans, each \$1.00; per doz., \$10.00; by express only.

VARIOUS ORNAMENTAL PLANTS.

BEGONIA.

Begonia Rex.

Profusion. This is of the *Fuchsioides* type, with large foliage, and as its name indicates, a profusion of delicate shell-pink flowers. Each, **50 cents**.

Vesuvius. The finest of the *Fuchsioides* varieties with large leaves and numerous deep red flowers; a fine new sort either for winter blooming or summer bedding. Each, **50 cents**.

Rex Varieties. Large bronze-green and silvery leaves, usually red on the under side; very handsome. Each, **20 cents**; per doz., **\$2.00**. Larger plants, **50 cents** to **1.00** each.

Erfordia White. Dwarf variety with small white flowers borne in great profusion; an excellent sort for design bedding during summer as well as for winter blooming. Each **50 cents**.

Erfordia Pink. Similar to the preceding except the flowers, which are blush pink. Each, **50 cents**.

Goliath. A magnificent Begonia of the *Semperflorens* type, with luxurious leaves and large apple-blossom flowers; one of the best of the recent French hybrids. Each, **50 cents**.

Mammoth. Similar in habit to *Goliath*, but having iridescent deep pink flowers of large size, great substance and beauty. Each, **50 cents**.

IMPATIENS SULTANI CARMINE GEM.

Charming plant for window and conservatory culture, with deep green foliage and flowers of purplish carmine. Each, **25 cents**. Larger plants, each, **50 cents** to **\$1.00**.

PRIMULA FORBESI. Baby Primrose.

Tiny plants producing numerous trusses of delicate purplish lilac blossoms, pretty and interesting. Each, **15 cents**; per dozen, **\$1.50**.

SWAINSONIA GALEGIFOLIA ALBA.

A popular plant with gardeners and florists for winter blooming, with acacia-like foliage and pure white flowers resembling Sweet Peas in trusses of ten to twenty. Each, **25 cents**; per dozen, **\$2.50**.

CARNATIONS.

Strong plants of the leading varieties, specially grown for winter flowering under glass, including white, pink, scarlet, crimson and yellow. Per dozen, **\$2.50** to **\$3.00**.

VIOLETS.

The Farquhar. This is undoubtedly the finest Violet in cultivation, and now one of the most popular throughout the country. It is of vigorous growth, producing in great abundance, enormous deep blue fragrant blossoms on long stout stems. Plants, each, **20 cents**; per dozen, **\$2.00**. By mail, add **5 cents** each, for postage.

Nephrolepis Exaltata.

FERNS.

NEPHROLEPIS EXALTATA.

BOSTON SWORD FERN.

One of the best ferns for conservatory and window cultivation. Plants in 5-inch pots. Each, **50 cents**. Larger plants, **\$1.00 to \$3.00**.

ASSORTED FERNS FOR FERNERIES.

Choice sorts in great variety. Plants from 2½ and 3-inch pots. Each, **15 cents**; per dozen, **\$1.50**; per 100, **\$8.00**.

ASPARAGUS.

Greenhouse climbers, with fine, rich green foliage, of great value in floral work.

	Each.	Per Doz.
Plumosus Nanus (<i>Climbing Lace Asparagus</i>), bright green, finely pinnate fern-like foliage; very lasting; strong plants	\$0.25	\$2.50
Sprengerl. The bright green feathery sprays are often three or four feet in length, of drooping habit; excellent for hanging pots and baskets25	2.50

SMILAX.

Strong young plants. Each, **15 cents**; per dozen, **\$1.20**; per 100, **\$8.00**. Larger plants, per 100, **\$10.00 to \$12.00**.

DRACÆNA INDIVISA.

FOUNTAIN PLANT.

The long slender leaves contrast beautifully with Palms and plants of heavier foliage; being easily grown it is adapted to house decoration. Plants in 5-inch pots, Each, **50 cts.** Larger plants, each, **\$1.00**.

Dracæna Indivisa.

WIRE PLANT STANDS.

Made of strong wire, painted green and mounted on castors. When not in use may be folded up and put away.

- 3 Shelf Stand, folding (*see cut*), each, \$4.00.
- 2 Shelf Stand, folding, each, \$3.25.

WOOD PLANT STANDS. *

Semi-circular stands in natural wood finish, \$1.00 to \$3.00 each.

HARDY HYBRID PERPETUAL ROSES.

The finest English-grown stock. For delivery in March or April, 1901.

One of the leading English Rosarians is now growing for us many thousands of the most popular Hybrid Perpetual Roses. Experience has proved these much better adapted to withstand our rigorous New England climate than Dutch or French Roses.

Our English-grown Roses, have given the highest satisfaction, and the stock we offer will be the best produced. The soft-wooded plants grown on the meadows of Holland, so generally sold here, are unsuited to our climate and cause disappointment.

Selected Plants each 50c.; per dozen, \$4.00; per 100, \$25.00.

SEE LIST OF VARIETIES ON PAGE 48.

HARDY HYBRID PERPETUAL ROSES.

For Spring delivery. Each 50c.; per doz., \$4.00; per 100, \$25.00.

- Alfred Colomb.** Brilliant carmine-crimson; large.
Anna de Diesbach. Clear bright rose.
Baroness Rothschild. Pale flesh pink; very fine.
Beauty of Waltham. Bright rosy crimson.
Captain Christy. Delicate rose; centre deeper.
Captain Hayward. Bright crimson-carmine.
Charles Lefebvre. Bright velvety scarlet.
Clara Cochet. Clear rose; centre deep rose.
Duke of Edinboro. Vermilion.
Dupuy Jamain. Light cherry red.
Earl Dufferin. Velvety crimson, shaded maroon.
Fisher Holmes. Rich velvety crimson.
Francais Michelin. Deep rose; reverse of petals silvery.
General Jacqueminot. Brilliant scarlet-crimson.
Gloire Lyonnaise. Fine chrome yellow.
Gustav Piganeau. Brilliant carmine-like.
Jeannie Dickson. Rosy-pink; edged silvery pink.
John Hopper. Brilliant rosy-crimson.
Jules Margottin. Bright cherry.
La France. Bright lilac-rose; centre silvery-white.
Lady M. Fitzwilliam. Bright delicate flesh color.
Louis Van Houtte. Deep red, shaded with maroon crimson.
Mabel Morrison. White, faintly flushed with pink.
Madame Gabriel Luizet. Fine satiny rose.
Magna Charta. Bright pink suffused with carmine.
Marchioness of Londonderry. Ivory white, very large.
Margaret Dickson. White, pale flesh centre.
Marie Baumann. Rich carmine-crimson.
Merveille de Lyon. Beautiful pure white; centre tinted satiny pink.
Monsieur Boncenne. Dark velvety crimson.
Mrs. John Laing. Soft pink; superb flower.
Mrs. R. G. S. Crawford. Rich, clear rose-pink.
Paul Neyron. Deep rose, very large.
Pride of Waltham. Flesh color, shaded with bright rose.
Prince Camille de Rohan. Very dark velvety crimson.
Senateur Vaisse. Dazzling red.
Sir Rowland Hill. Deep port wine color, shaded with dark maroon.
Thomas Mills. Bright rosy carmine.
Ulrich Brunner. Cherry crimson.
Victor Verdier. Deep rose; centre bright rose.
White Baroness. Pure white.
White La France. Pure white.
White Lady. White.
Xavier Olibo. Rich velvety-crimson.

HARDY MOSS ROSES.

For Spring delivery. Each, 50 cts.

- Baronne de Wassenair.** Fine deep rose. **Blance Moreau.** Large white.
Crested. Deep rose-pink.

AUSTRIAN ROSES.

For Spring delivery. Each, 50 cts.

- Harrisonii.** Harrison's double yellow. **Persian Yellow.** Very deep and full.

CRIMSON RAMBLER ROSE.

We offer for October delivery fine Plants grown in our own Nursery.

This is unquestionably the finest hardy climbing Rose in cultivation. It is rampant grower, perfectly hardy and in profusion and brilliancy of flower unapproached by any other climbing rose. A plant growing on our grounds, planted four years ago produced last summer upwards of fifty thousand blossoms.

The blossoms are borne in immense clusters often 150 in a cluster, they are of a brilliant crimson color and produce a most gorgeous display.

First size plants, each 50 cents; per dozen, \$4.00.

Extra large plants, each 75 cents; per dozen, \$6.00.

HARDY SHRUBS FOR AUTUMN PLANTING.

☞ **Rhododendrons, Azaleas and other shrubs which we deem it unsafe to move in the fall, are omitted from this list; they will be enumerated in our Spring Catalogue, which we mail free on application.**

The following shrubs have been found hardy and the most desirable for general planting in our climate. The month in which each usually blooms is stated.

	Each.
Almond, Double Pink , May . . .	\$0.50
Almond, Double White , May50
Althæa, White, Red, Purple , August to October35
Althæa, Variegated Leaved , August to October50
Bacchus Halmifolia , September .	.50
Berberis Purpurea , June; purple foliage25
Berberis Thunbergii (<i>Japanese Barberry</i>), June25-50
Berberis Vulgaris (<i>Common Bar- berry</i>), June25
Calycanthus Floridus (<i>Spice Bush</i>) June to September, chocolate-col- ored, fragrant flowers50
Chionanthus Virginicus (<i>White Fringe</i>), June35-75
Clethra Alnifolia (<i>Sweet Pepper Bush</i>), August; fine erect spikes of white flowers35
Corchorus Japonica Flore Pleno (<i>Kerria</i>), May; fine dark green foliage and deep golden yellow blossoms25

Chionanthus Virginicus.

Cydonia Japonica.

	Each.
Cornus San- guinea (<i>Red Osier</i>), May; bark deep red35
Cornus Sibera- ica (<i>Siberian Scarlet Dog- wood</i>), bark scarlet50
Cydonia Japo- nica (<i>Japanese Quince</i>), May; large red blos- soms25-50
Desmodium Penduliflor- um (<i>Sweet Pea Shrub</i>), August to Oc- tober; pea shaped, red and violet blos- soms; the plant dies to the ground in winter but comes up strong in the spring25-50

HARDY SHRUBS FOR AUTUMN PLANTING — Continued.

	Each.
Deutzia Crenata Flore Pleno , June; double white flowers	\$0.25-50
Deutzia Crenata Rosea Flore Pleno , June; double pink25-50
Deutzia Gracilis , June; dwarf, white25-50
Euonymus Americanus (<i>Strawberry Bush</i>), June35
Euonymus Atropurpureus (<i>Burning Bush</i>), June; purple flowers in clusters50
Euonymus Europeus (<i>Spindle Tree</i>), June50
Exochorda Grandiflora , May; bears a profusion of white blossoms; magnificent25-75
Forsythia Suspensa (<i>Golden Bell</i>), May; drooping25-50
Forsythia Fortunei , Erect habit25-75
Hydrangea Paniculata Grandiflora , The well known hardy Japanese Hydrangea August to October25, 50, 75
Lilac Common Purple (<i>Syringa</i>), May25-50
Lilac Common White25-50
Lilac Large Flowering White50
Lilac Persian Purple , very large50
Lilac Persian Named Sorts , in great variety50-75
Lonicera Tartarica (<i>Bush Honeysuckle</i>), May; pink, fragrant35
Privet Californian (<i>Ligustrum</i>), rich dark green foliage15-35
Prunus Pissardi (<i>Purple-Leaved Plum</i>), dark purple leaves50
Prunus Triloba (<i>Double-Flowering Plum</i>), May; pink50
Pyrus Maulus Baccata , flesh-pink; double50
Pyrus Maulus Parkmanni , dark rose, drooping50-1.00
Ribes Floridum (<i>Flowering Currant</i>), June; white25-50
Ribes Sanguineum , crimson25-50
Rubus Odoratus (<i>Flowering Raspberry</i>), July; purple25-40
Sambucus Aurea (<i>Golden Elder</i>), leaves golden yellow50
Spiræa Anthony Waterer , May; rosy carmine25-50
Spiræa Callosa (<i>Fortune's Spiræa</i>), May; deep rose25-50
Spiræa Prunifolia Flore Pleno (<i>Bridal Veil</i>), May; white, double25-50
Spiræa Reevesii Flore Pleno , white flowers in long sprays25-50

	Each.
Spiræa Thunbergii , white flowers along the willow-like branches25-50
Spiræa Van Houttei , white pendulous; very fine25-50
Syringa, Golden (<i>Philadelphus Aurea</i>), June; golden foliage50
Syringa, Sweet Scented (<i>Philadelphus Coronarius, Mock Orange</i>), June; white, fragrant25-50
Symphoricarpus Racemosus (<i>Snowberry</i>) July; pink flowers followed by large white berries35-50
Viburnum Plicatum (<i>Japanese Snowball</i>), July; erect habit; the finest Snowball50-1.00
Weigelia Candida , June; large white flowers25-50
Weigelia Rosea , rose25-50
Weigelia Rosea Variegata , rose, variegated foliage25-50

Weigelia Rosea.

RHODODENDRONS.

FOR SPRING DELIVERY.

We import annually a large assortment of the best English-grown Hardy Hybrids.

These plants being grown on exposed heath land, are of hard stocky growth with abundance of fibrous roots, and well set with flower buds.

FINE PLANTS \$10.00 to \$15.00 per dozen. LARGER PLANTS \$18.00 to \$30.00 per dozen.

FRUIT TREES AND SMALL FRUITS.

We enumerate a few varieties of decided merit in each class. Complete assortments are listed in our general Spring Catalogue, mailed free, on application.

APPLES.

First class trees five to seven feet, each, **50 cts.** Larger sizes, each, **75 cts.** to **\$1.00.**

Industry Gooseberry.

- Summer:** **Williams' Favorite**, August; red striped.
Red Astrachan, August; crimson.
Autumn: **Gravenstein**, September to November; striped.
Porter, September; light yellow.
Winter: **Hubbardston Nonesuch**, yellow and red.
Baldwin, deep red, large; fine.
King, crimson; very large.
Rhode Island Greening, sweet, keeps well.
Roxbury Russet, splendid; keeps till May.
Crab, Red Siberian, yellow and scarlet.

CHERRIES.

First class trees two to three years old, each, **75 cents** and **\$1.00.**

- Black Tartarian**, purplish black; very rich; June.
Coe's Transparent, amber; large and sweet; June.
Late Duke, dark red; juicy; July.

PEACHES.

Fine trees, each **25 cts.**; Larger size, each, **50 cts.**

- Coolidge's Favorite, Early**, freestone, fine flavor; August.
Crawford's Early, freestone, yellow and red; Sept.
Stump-the-World, Late, large, fine quality; Sept.
Crawford's Late, excellent, yellow flesh; October.

PEARS.

First class trees five to six feet, each, **75 cts.**
 Larger trees, **\$1.00** to **\$1.50.**

- Bartlett, Summer**, the best summer Pear; large and luscious.
Clapp's Favorite, Summer, very early; excellent quality.
Beurre Bosc, Autumn, large, rich flavor; October.
Seckel, Autumn, medium size, delicious flavor; Sept.
Sheldon, Autumn, excellent quality, medium size; October.
Dana's Hovey, Winter, sweetest winter Pear; small.
Beurre d'Anjou, Winter, excellent flavor; keeps very long.
Lawrence, Winter, fine flavor; December.

PLUMS.

Trees five to six feet, each, **75 cents.**
 Larger sizes, **\$1.00** to **\$1.50.**

- Bradshaw**, large juicy fruit, dark purple; August.
Jefferson, yellow and red, large and sweet; August.
Imperial Gage, greenish yellow, very rich and sweet; August.

QUINCE.

Orange, large, yellow fruit; the best; each, **50 cents** to **\$1.00.**

BLACKBERRIES.

- | | |
|---|----------|
| | Per Doz. |
| Dorchester , large black oblong fruit; sweet | \$1.00 |
| Snyder , very sweet, large and free | 1.00 |

CURRANTS.

- | | |
|--|----------|
| | Per Doz. |
| Fay's Prolific Red , largest and finest | \$1.75 |
| White Grape , early; very fine | 1.00 |

GOOSEBERRY.

- | | |
|--|----------|
| | Per Doz. |
| Windham's Industry , large red berries; sweet | \$2.50 |

RASPBERRIES.

- | | |
|---|----------|
| | Per Doz. |
| Cuthbert , red, heavy cropper; excellent | \$1.00 |
| Brinckle's Orange , yellow, large, sweet | 1.00 |

HARDY GRAPES.

- Good plants, each, **50 cents**; extra strong plants, each, **50 cents.**
Moore's Early, Black, excellent early sort; large bunches.
Hartford, Black, early, fine quality.
Concord, Black, vigorous grower, excellent flavor.
Brighton, Red, early, fine flavor; strong grower.
Niagara, White, hardy sort of fine flavor.

POT GROWN STRAWBERRY PLANTS.

These if planted in August or September produce a large crop the next summer. Being grown in pots they may be shipped to a distance and planted with almost no interruption to their growth. The earlier they are planted the larger the first season's crop will be. The plants may be set in beds of three rows, one foot apart, and one foot distant in the rows, with a space of two and a half feet between the outside rows of adjoining beds left for a pathway. They may also be planted in single rows three feet apart and one foot apart in the rows.

Bi-sexual or staminate varieties marked S, are self fertilizing. Pistillate, or imperfect varieties are marked P, require a staminate sort planted near them for fertilization.

Prices: The Talbot, \$4.00 per 100.
Nick Ohmer, \$3.00 per 100.
Other varieties, listed, \$2.50 per 100.

THE TALBOT.

THE TALBOT. (P.) This splendid new variety is of even stronger growth than the now famous Marshall Strawberry, and grown side by side with that variety has produced much heavier crops. The fruit is of bright red color, and does not turn blackish when fully ripe, as the Marshall is inclined to do. It is of roundish conical form; the flesh being firm, close grained, and of delicious flavor. When exhibited last year at the Worcester County Horticultural Society's Strawberry Exhibition, **The Talbot** received the highest award for excellence over all other sorts. Being a native of New England, the adaptability of **The Talbot** is assured, and it cannot fail to become a popular and profitable sort for both private use and the market.

SAMPLE. (S.) The flavor and fine color of the fruit is not surpassed.

NICK OHMER. (S.) New, second early; productive sort. Berries large, conical, glossy dark red, and of excellent flavor. This has been found the best and most productive sort for Winter forcing under glass.

MARSHALL. (S.) The "prize-taker" invariably; an enormous cropper and of very fine flavor.
Brandywine. (S.) Great cropper, succeeding best on heavy soils. Fruit large, bright red, of sprightly flavor.

Glen Mary. (S.) A good sort for family use. Berries large, conical, bright red color, firm, and fine flavor.

Belmont. (S.) A favorite sort for both market and family use in the vicinity of Boston. Fruit large and delicious.

Clyde. (S.) Second early; very heavy cropper. Berries conical, large and firm. Fine market sort.

Haverland. (P.) Fruit large, of good form and fine quality; luxuriant growing variety.

Lovett. (S.) Large and productive; early, fine formed and delicious.

Bubach No. 5. (P.) One of the best and most popular; very sweet.

LAYER STRAWBERRY PLANTS. Layer plants can be had in October at the following prices: **The Talbot**, \$2.00 per 100. **Nick Ohmer**, \$1.50 per 100. Other varieties above mentioned, \$1.00 per 100.

 We can supply plants of many sorts not included in the foregoing list.

HOT-HOUSE GRAPES.

It has hitherto been necessary, when one desired to plant a Grapery to import the grape vines, if strong canes of the best sorts were desired, and the expense including duty and freight of p'ants in large pots was excessive.

To meet the long felt want of a home source of supply we have grown from the best imported stocks over a thousand plants, comprising the following sorts, namely :

- Black Hamburg.**
- Black Alicante.**
- Bowood Muscat.** White.
- Lady Downe's Seedling.** Black.
- Madresfield Court.** Black.
- Mrs. J. R. Pearson.** White.
- Muscat of Alexandria.** White.

Black Hamburg and Madresfield Court are adapted to both hot and cold graperies ; the other sorts to hot graperies only.

Strong plants of the above sorts \$1.00 each.

ENGLISH MILLTRACK MUSHROOM SPAWN.

The constantly increasing demand for mushrooms taxes to a greater degree the skill and perseverance of the grower. Fresh, live spawn must be obtained, without which success would be impossible. We are fully alive to the importance of quality in spawn to the mushroom-raiser and we get the best produced. It is prepared from virgin mycelium, in a compost most favorable to its development and preservation. It is germinated, and developed under special scientific methods, the conditions of air, light, heat and humidity of the spawning houses being carefully regulated. Our mushroom-spawn then is not the uncertain material of the past, but is of uniform quality, prepared by the most successful and progressive mushroom specialist in England. Under proper treatment, it has never been known to fail. We import every two or three months to ensure freshness.

Per lb., 15c.; 8 lbs., \$1.00; 100 lbs., \$9.00; by mail per lb., 25c.

BOOKS ON MUSHROOM CULTURE. The following are excellent :

- Mushroom Culture.** By Robinson, .68.
- How to Grow Mushrooms.** By William Falconer, \$1.40.

Messrs. R. & J. FARQUHAR & Co.,

The Mushroom Spawn I received from you last Fall is the best I ever had. My first bed began to yield on December 1st., and it looks fully as well today as at any time during its bearing. It is completely alive with small Mushrooms. I expect to get into Boston in about two weeks, when I will bring in another order for Seeds.

Respectfully yours,

ANDOVER, MASS., Jan. 20, 1900.

J. H. PLAYDON.

MALDEN, MASS, Dec. 2, 1899.

Messrs. R. & J. FARQUHAR & Co.,

Gentlemen: — I wish to write you regarding the English Mill Track Mushroom Spawn I purchased from you. It is the finest I ever saw, the bed being completely covered with mushrooms of good texture and color.

Yours very truly,

D. F. R., Supt. to E. S. C.

LAWN GRASS.

SUGGESTIONS ON MAKING AND CARING FOR LAWNS.

The ground selected for lawn, should have at least a foot in depth of good soil; it should be thoroughly pulverized and liberally enriched with well-rotted barn-yard dressing, dug well under, and the surface made perfectly smooth.

The seed sown should be a mixture of hardy, dwarf-growing grasses, free from the seeds of weeds, and when used on light soils, a little white clover should be added, say one pound to the bushel.

The seeds should be lightly raked in and the ground rolled to make the surface firm.

Perhaps the best time of the year to sow a new lawn is September; the natural seeds of weeds which are present in every soil do not start then, and the grass gets a season's growth in advance of the weeds. The next best season is early spring, the earlier the better, so that the grass may get started as much as possible before indigenous weeds.

The after care of a lawn is also important. It should be regularly cut, otherwise the coarser grasses will grow up and choke out the finer sorts, thus destroying the smooth velvety surface so much to be desired. It should be regularly enriched by top-dressing with good abatoir lawn dressing, fine ground bone, unleached wood ashes, etc. Lawn dressings composed entirely of chemicals, should be used cautiously and applied only when the grass is dry. Barn-yard manure should never be used to top-dress lawns; it usually contains seeds of noxious weeds from the hay, which when introduced, are difficult to exterminate.

Every spring the lawn should be raked over with a steel garden rake, which will take out dead grass and scratch the ground somewhat. A little lawn grass seed should be scattered over bare or thin spots, and the whole rolled to render the surface even and firm.

Farquhar's Evergreen Lawn Grass. A mixture of dwarf, hardy persistent grasses producing a close, deep green, velvety turf. Only fresh, clean seeds, of high germination are used. Our Grass Seeds are celebrated throughout New England and are extensively used in the parks of Boston, the Newport and Lenox estates and other leading summer resorts. Per bushel, \$4.00; per peck, \$1.00; per quart, 20 cents. By mail, postage-paid peck, \$1.50; quart, 25 cents.

New Boston Parks Lawn-Seed. We have received from Messrs. Olmsted, Olmsted & Eliot, their formula used in seeding the beautiful lawns and terraces of Boston's new parks. Franklin Park and in fact all the Metropolitan parks have been planned by this firm of eminent landscape architects, and their formula for the Lawn-Grass Seed mixture used may be accepted as the best which great experience and extended knowledge can suggest. The seed is fresh, clean and free from weeds, producing a perfect, velvety green turf in a remarkably short time.

62 lbs., sufficient for <i>one acre</i> (43,560 square feet)	\$15.00
31 lbs., sufficient for <i>one-half acre</i> , (21,780 square feet)	7.50
16 lbs., sufficient for <i>one-quarter acre</i> , (10,890 square ft)	4.00
1 lb., sufficient for <i>700 square feet</i>30

Add eight cents per pound to these prices if wanted by mail.

ENGLISH LAWN GRASS, Finest Mixture. Per bushel, \$3.00; peck, 75 cents; quart, 20 cents. By mail, post-paid, peck, \$1.25; quart, 25 cents.

SPECIAL GRASS SEED MIXTURES.

This department of our business receives particular attention. All our formulas and mixtures are personally prepared by Mr. James Farquhar.

FARQUHAR'S MIXTURE FOR SHADY PLACES.

This is a mixture of extra fine grasses adapted for growing in the shade. We recommend the use of this mixture wherever other grasses have failed to make a close sward.

Quart 35 cents; peck, \$1.50; per bushel of 20 lbs., \$5.00.

The following specially prepared Mixtures at a uniform price as follows, viz. :
Quart, 30 cents; peck, \$1.50; per bushel of 20 lbs., \$5.00. If by mail add 8 cents per quart extra. Special quotations for large quantities.

THE "GOLF LINKS" MIXTURE.

During the last visit to Scotland, we visited several of the courses, to ascertain the variety of Grasses generally used to produce the fine, close sward so common there. We have supplied several Clubs the past year with the Mixture, which we now offer and which is the result of a careful study of the requirements for making beautiful Golf Links. We do not hesitate to say that it has given entire satisfaction.

THE "PUTTING GREEN" MIXTURE.

The very finest low growing Grasses are contained in this Mixture and they are also very hardy. This Mixture will produce a beautiful and lasting green turf wherever used.

THE "TERRACE" MIXTURE.

This is a Mixture of strong, deep rooted Grasses for "banks" or "terraces." Although the Grasses are strong and deep rooted, they will produce a fine green velvety appearance, and also prevent the Terrace from being washed away during heavy rains.

FIELD GRASSES AND CLOVER SEEDS

For Fall sowing. Prices on application.

WINTER RYE. For Fall sowing. Per bushel, \$1.25.

VEGETABLE SEEDS FOR AUTUMN SOWING.

	Per Packet.
Cucumber, Boston Market Forcing. Ounce, 40 cents	\$0.10
Lettuce, Hittinger's Belmont. Best forcing sort; new. Per ounce, 40 cents05
Lettuce, White seeded Tennis Ball. For culture under glass. Ounce, 40 cents05
Radish. Long Scarlet, Round Scarlet, French Breakfast. Per ounce, 10 cents05
Spinach, Arlington, Home-grown. Per pound, 60 cents. Ounce, 10 cents05
" Round Seeded, Thick. Per pound, 30 cents. Ounce, 10 cents05
" Savoy Leaved. Per pound, 30 cents. Ounce, 10 cents05
" Prickly Seeded. Per pound, 30 cents. Ounce, 10 cents05

Made from well seasoned lumber and glazed. Frame, 1½ inches, 3x6 feet, \$2.85; 1¾ inches, 3x6 feet, \$2.50. Unglazed and unpainted sashes, \$1.15 to \$1.40.

SINGAPORE FIBRE HOT-BED MATS.

The most durable mat made, free from attacks of mice. Size, 6x6 feet; each, \$2.00.

STRAW MATS.

Made of fresh rye straw, tied with the best quality tarried marline. Thick and affording excellent protection from frost. Regular size, 6x6 feet; each, \$1.50. Extra heavy, \$2.00.

FERTILIZERS.

- Pulverized Sheep Manure.** Valuable for mixing in potting soil and for liquid applications in the greenhouse; one of the best enrichers for bulb beds and top-dressing lawns. In potting soils use one part manure to eight parts soil; for top-dressing lawns, 600 to 800 pounds to the acre. **Price,** per bag of 100 lbs., \$2.50; 50 lbs., \$1.50; 10 lbs., 50 cents; 4 lbs., 25 cents; 1 lb., 10 cents; 1 lb., by mail, 25 cents.
- Complete Animal Fertilizer.** An excellent, high grade fertilizer for lawns, gardens and orchards; a nourishing and lasting plant food. **Price,** in tight boxes, 10-lb. box, 50 cents; 25-lb. box \$1.00; 50-lb. box, \$1.50; 100-lb. box, \$2.75; per ton, \$30.00
- Pure, Fine Ground Bone.** Excellent for mixing in potting soils, top-dressing lawns and enriching the garden. **Price,** in tight boxes, 10-lb. box, 50 cents; 25-lb. box, \$1.00; 50-lb. box, \$1.50; 100-lb. box, \$2.50; barrel, \$4.50; in bags or barrels, 2 cents per pound: per ton, \$35.00.
- Bone Flour.** The finely powdered condition to which this is reduced, renders it quickly available to plants, producing immediate results. **Price,** per 100 lbs, \$3.00; barrel, \$5.00; ton, \$36.00.
- Grape or Inch Bone.** A lasting fertilizer for grape vines, fruit trees and shrubs. **Price,** in bags or barrels, 2 1/2 cents per lb.; per ton, \$35.00.
- Nitrate of Soda.** Highest grade. **Price,** per 100 lbs., \$2.75; 10 lbs., 50 cents.
- Clay's Fertilizer.** An excellent fertilizer for greenhouse use. **Price,** 112 lb. bag, \$7.00.
- Unleached Hard-wood Ashes.** Valuable for lawns, fruit trees and general garden use. Per barrel, \$2.50; per ton, \$18.00.
- Lawn Dressing.** This is the best material with which to top-dress lawns, being free from the seeds of weeds contained in barn-yard manure. **Price,** trial bags for 1,000 square feet, 50 cents; bag, 2,500 square feet, \$1.00; 50 lbs., for 5,000 square feet, \$1.75; 100 lbs., for one-fourth acre, \$3.00.

FERTILIZERS FOR POT PLANTS.

- Bowker's Ammoniated Flower Food.** A clean, dry powder, soluble in water and a valuable plant food. **Trial Package,** 15 cents; by mail, 25 cents. **Large Package,** 25 cents; by mail, 50 cents.
- CANARY GUANO.** The best for garden and greenhouse, in tins as imported, each 50 cents.

INSECTICIDES.

- Seal Oil Soap.** Destroys scale, red-spider, thrip, aphid and mealy-bug without injury to the plants; one of the best insect destroyers. In boxes, 1 lb., 25 cents; 5 lbs., \$1.00.
- Fir-Tree Oil.** An excellent insecticide for general use, soluble in water and having a pleasant odor. Full directions on each package. **Price,** half-pint, 50 cents; pint, 75 cents; quart, \$1.25.
- Persian Insect Powder.** Destroys green and black flies on plants, fleas, etc. Per lb., 50 cents.
- Tobacco Stems.** For fumigating, also mulching beds of Roses, Violets, Lettuce and other plants. Per barrel, \$1.00; large bale, \$2.00; large crate, \$5.00.
- Tobacco Dust.** Dusted on plants, destroys green and black aphid. 5-lb. package, 25 cents; 100 lbs., \$2.50.
- Tobacco Flour and Sulphur.** Finely pulverized and mixed. Per lb., 10 cents; 10 lbs., 75 cents; 100 lbs., \$6.00.
- Tobacco Soap, Rose's Perfected.** Destroys green fly, red spider, scale, lice, and eggs of insects. Box, 25 cents; by mail, 38 cents.
- Lemon Oil.** An effective insecticide for aphid, thrip, mealy-bug, red spider, wire-worms and slugs. Pint, 40 cents; quart, 75 cents; 2 quarts, \$1.25; gallon, \$2.00.
- Flour of Sulphur.** Prevents and checks mildew on plants. Per lb., 8 cents.
- Gishurst's Compound.** A favorite English insecticide for all greenhouse pests. Per box, 60 cts.; by mail, 80 cts.
- Bordeaux Mixture.** For prevention and cure of all forms of blight. Per gallon, \$1.00; per quart, 40 cents.
- XL All Vaporizing Compound.** An English patent, now considered to be the most easy, safe and effectual method of fumigating greenhouses, destroying all insects. Bottle for 5,000 cubic feet, \$1.25; bottle for 10,000 cubic feet, \$2.50; bottle for 20,000 cubic feet, \$5.00.
- Fumigator.** Consisting of copper cup, cylinder and lamp, \$1.25 each.

JOHNSON'S GARDENER'S DICTIONARY.

Every one with a garden should own this admirable revised and greatly enlarged edition of Johnson's Gardener's Dictionary, first published in 1846. It contains a full and reliable list of cultivated plants, names printed in bold type, rendering references easy. An important feature of the work is the placing of synonyms alongside the correct name, instead of in a separate list. The habitat of each variety is given, also the date of its introduction. Practical cultural directions are given. Insect foes, diseases, and their remedies are fully described, and many of the former are illustrated. The Dictionary is a large handsomely bound volume, and is a reliable book of reference for gardeners, florists, and amateur horticulturists . . . \$4.00

OUR SPRING CATALOGUE.

Please send your address for our large illustrated catalogue of Flower, Garden, and Farm Seeds, Bulbs, Plants, Ornamental Trees and Shrubs, Fruit Trees, etc., which we issue in January and mail free to seed-users. We shall be glad to receive also the addresses of any of your friends who would be interested in it.

COMMONWEALTH OF MASSACHUSETTS.
OFFICE OF SERGEANT AT ARMS.

STATE HOUSE, BOSTON, MAY 16, 1900.

MESSRS. R. & J. FARQUHAR & CO.,

GENTLEMEN:—THE DISPLAY OF HYACINTHS
AND TULIPS ON THE STATE HOUSE GROUNDS THIS
SEASON IS THE FINEST WE EVER HAD, AND OUR
SUCCESS IS DUE, IN A LARGE MEASURE, TO THE
FINE QUALITY OF THE BULBS YOU FURNISHED.

YOURS VERY TRULY,

(SIGNED) G. M. F.
